

Vacancy no.: 904

Chartis is a world leading property-casualty and general insurance organization serving more than 40 million clients in over 160 countries and jurisdictions. With a 90-year history, one of the industry's most extensive ranges of products and services, deep claims expertise and excellent financial strength, Chartis enables its commercial and personal insurance clients alike to manage virtually any risk with confidence.

JUNIOR RISK ENGINEER

Position Description

- ▲ ü You will become responsible for risk assessments of insured risks in the Belgian and Luxemburg region, for the identification of exposures and for the development of recommendations to reduce or eliminate these risks.
- ▲ ü You will complete risk assessments of prospective clients to provide underwriters with an assessment of the level of risk and protection.
- ▲ ü You will produce loss estimates to assist underwriters in best use of Chartis capacity.
- ▲ ü You will complete other engineering support functions including:
 - The provision of fee customers with fire system engineering solutions
 - The assisting of underwriters with technical questions and research
 - The planning of reviews and audits
 - Impairment management

Position Requirements

- ▲ ü You possess a Master's Degree in Engineering (or equivalent), a degree in Construction is a plus
- ▲ ü You have a first working experience, preferably in a technical environment
- ▲ ü You are customer focussed
- ▲ ü You have strong interpersonal, verbal and written communication skills
- ▲ ü You have the ability to work on your own initiative
- ▲ ü Fluency in Dutch, French and English are required, any other European language is a plus
